June 19th Scale Day

Freedom Days Parade

The club float turned out great. Took 2nd place in our category. Thanks to all who helped in the effort. Tim Nobis provided the trailer and Chris Conley provided the truck and towed the float during the parade. Good exposure for the club and well received by the city.

Safety Report

Paul Jarvis explained a couple techniques for straight taildragger takeoffs. Wiggle the rudder as you power up to be better prepared for needed corrections. Check tailwheel alignment and think about adding some right rudder trim during takeoff. For maiden flights, have somebody take a look at your plane just to make sure you didn't miss anything.
